# Research Exam Evaluation Form

**Student** _____ **Date** _____

**Evaluation**      **Criteria**

_____      Is the student able to find relevant literature and acquire depth of
                     knowledge in a given research area?

_____      In the given research area, does the student show deep insight and
                     perform a critical analysis?

_____      Does the student have the breadth of knowledge to perform research
                     and the ability to acquire new knowledge independently?

_____      What is the quality of the writing of the report, compared to a typical
                     paper at a peer-reviewed conference in the given research area?

_____      What is the student's ability to present research and communicate
                     technical ideas orally?

 For each item on the evaluation form the committee must rate the student "excellent,"
"good," "fair," or "unsatisfactory."  To pass the exam, a student must have a "fair" or
better evaluation for every criteria.
